Location : Kütahya, Turkey

SUMMARY

Computer Engineering graduate with a web development internship and full-stack project experience using React, TypeScript, C#, ASP.NET Core and SQL. Built responsive web interfaces, integrated REST APIs and implemented authentication and real-time functionality. Selected live projects: erenpinyal.com.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, SQL, Java, Python

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, Zustand, Responsive Design, Vite

Backend & APIs: ASP.NET Core, Node.js, Express.js, RESTful APIs, JWT, SignalR, Spring Boot

Databases & ORM: PostgreSQL, Microsoft SQL Server, MySQL, Redis, Entity Framework Core, Prisma ORM

Tools: Git, GitHub, Docker, Postman, Visual Studio, VS Code, Maven

EXPERIENCE

Web Developer Intern Aug 2025 – Sep 2025
DemiraySoft *Kütahya, Turkey*

- Developed responsive web pages with React, JavaScript, HTML and CSS.
- Contributed to a family association management system and a technology park website.
- Collaborated with developers on UI improvements, content integration and Git-based workflows.

IT Support Intern Aug 2024 – Sep 2024
Enel Enerji *Kütahya, Turkey*

- Assisted with UPS diagnostics, motherboard repairs, firmware updates and hardware testing.

SELECTED PROJECTS

Project Management System
React, TypeScript, ASP.NET Core, EF Core, JWT, SignalR, Docker

- Built a full-stack platform for managing projects, tasks, comments and members.
- Implemented JWT-based sign-in, role-based permissions and live updates with SignalR.
- Integrated a React interface with ASP.NET Core APIs and Entity Framework Core data access.

Seçmece - Multiplayer Card Game
HTML, CSS, JavaScript, MQTT, Vercel

- Developed a browser-based multiplayer team card game with turn-based rounds and bidding mechanics.
- Used MQTT messaging for player communication and published a live web demo.

Reno Bayi - Vehicle Sales & Fleet Management
React, TypeScript, Zustand, Tailwind CSS, Vite, Tauri

- Developed an application for managing customers, vehicles and sales records across dealership operations.
- Implemented Excel (XLSX) import/export, fleet tracking and reporting features; supported desktop packaging with Tauri.

Library Management System
Java, Spring Boot, MySQL, REST APIs

- Developed RESTful endpoints for inventory, member records and lending/return operations.

EDUCATION

Kütahya Dumlupınar University 2021 – 2026
B.Sc. in Computer Engineering *Kütahya, Turkey*
